Our products

We are experts in foreign exchange.
We keep our eyes on the market, so you don’t have to.

Spot Contracts
If you want to move your money straight away, a Spot Contract is for you. Make your transfer when you are ready or when the market has moved in your favour.

Forward Contracts
With a Forward Contract you can plan ahead and lock an exchange rate in place for up to two years. A Forward Contract is a smart choice if you’re buying property overseas, need to know exactly how much your currency will cost, or want to protect your money from an adverse market shift.

Stop-Loss and Limit Orders
Trading over £10,000? A Stop-Loss Order allows you to choose your maximum budget rate, and we’ll make the trade automatically should it reach that level, to save you from further losses. A Limit Order allows you to target a better exchange rate you’d like to transfer at and if a positive market fluctuation occurs to reach it, your trade will be made automatically to capitalise on the movement.

FAQ

How do we make the most of your funds?
Our currency specialists watch the market every day and can help you determine good times to make your transfer. We can also protect your funds by locking in an exchange rate for up to two years. We offer great rates of exchange with a Best Exchange Rate Guarantee.*

How do we make money?
Sometimes when you look for currency, you'll see the interbank exchange rate displayed. This is the rate that banks and other financial institutions buy and trade currency at between themselves. When you get a quote from a currency provider, you'll be offered an exchange rate, but it won't be the interbank level.

The difference between the price we pay for currency, and the price we sell it for, is known as the spread or margin. We're confident in the value we provide our customers, and even have a Best Exchange Rate Guarantee to help you get closer to the interbank rate.

What do we charge?
We don't add on any transfer fees, provided you transfer over our minimum amount of £3,000. If you need to transfer below this amount, we can assist you, but there may be a small fee. If you need to make multiple payments from one trade, these may incur an additional charge. Your Dealer will fully explain this. It's also worth checking with your overseas bank to see if they levy a fee for receiving the funds.
Do you only exchange Pounds into other currencies?
No, we offer over 140 currencies and can trade thousands of different pairings.

Why should I use a broker over another provider?
Brokers are currency specialists, so they can offer a more personalised service. With us, you'll have a direct line to our Dealing team, tailored transfers to suit your timescales, and the ability to lock-in an exchange rate for up to two years.

How long does it take?
Opening an account is a quick and simple process, and our transfers are made swiftly, so you receive your chosen currency as soon as possible. Some currencies can even be transferred the same day, just ask our Dealing team to find out more.

How do I know my money’s safe?
As an FCA authorised E-money institution we are required to follow strict rules to ensure your money is protected. All client monies are kept in segregated client accounts for your protection.
